

Community Education: Investing in our Future

Community Colleges Australia Annual Conference

Our conference: The Community Colleges Australia (CCA) Annual Conference is the premier event for Australian adult and community education providers, with an unparalleled program of inspirational speakers, facilitated workshops, networking and pre-conference masterclasses.

Our theme: The conference theme “Community Education: Investing in our Future” recognises the importance that education plays in people’s lives.

Our venues: Join us in Melbourne at two great venues - the iconic old-world charm of the Windsor Hotel, and the award-winning conference venue at Citadines on Bourke. Both are located in Melbourne’s dynamic “east end”, a diverse shopping and entertainment precinct in what many agree is “the world’s most liveable city”.

Our invitation: We invite your attendance to receive insights into the latest issues and policy changes affecting the sector, engage with ideas for new ventures, and participate in professional development workshops and networking opportunities. The conference will include community education CEOs, training managers and board representatives; other adult and community education (ACE) and training organisations; employment service agencies; as well as government policy makers, consultants, researchers and Commonwealth and state/territory government agencies.

Melbourne 25 to 27 July 2017
