

# Minded

**Why should open minds face closed doors?**

Wouldn't it be great if every young person could learn the critical life skills needed to find their passion, prepare for the workplace and be successful in life?

# The Minded experience

We blend the best of life coaching, techniques used in high-performance sport and digital tools to create a truly modern learning experience.

## Flexible blended learning

Minded courses are delivered digitally and support both full online or blended learning experiences:

- Courses can be run as fully online experiences.
- For digital cohorts, learners can use chat and shared virtual rooms for sharing and engagement
- Facilitator guides provide options for exercises to be run offline in groups and teams.

# The Minded Journey

# The Minded Personality Assessment

At Minded we begin by giving people an understanding of themselves, insights into their personality and identify their strengths to help them find their passion.

# The unique attributes of our assessment tool

- Developed in 2013 to reflect contemporary society
- Specifically designed to identify strengths, support communication skill development and pathway planning
- 21st century additions to traditional tools:
  -  Enterprising and innovative speaks to creative problem solvers, innovation and entrepreneurialism.
  -  Compassionate and spiritual speaks to ethics, fairness and caring. Qualities valued in future leaders and decision makers.

# Outcomes

# Learner Outcomes

After completing a Minded course, learners can:

- Learn skills and techniques to make them a well rounded and employable person.
- Develop the skills and techniques to address the fundamental issues facing young people in todays fast paced and ever changing environment.
- Have a solid base in the key areas of personal development.
- Have a set of skills that are the base for every person in the 21st century.

## Tertiary providers

Learners have a clear goal and plan their study in line with their aspirations, resulting in:

- improved completion rates
- reduced course changes and student loan debt
- having the personal and interpersonal skills to be job ready

# Employers & society

## Employers

- A stronger pool of graduates to pick from
- Well rounded graduates able to hit the workplace running

## Society

- Life skills are made widely available
- Fostering a new cohort of leaders within communities
