

**80%** of 2018 VET graduates from independent providers were employed after training compared to 77% of all VET students.

Domestically it costs government  
**\$2,400** per student trained  
by independent VET providers, and  
**\$5,500** per student trained by public  
TAFE institutes.

How does the  
community colleges sector  
perform  
in Australia?
